Aaryn,

If I get any updates I will send them. I am just now sure how certain/specific FL will be – they have been somewhat vague. I didn't put it in the update because I'm not certain, but when I last spoke to John they were still waiting on the governor's signature.

Great, thanks. I will add those MOA details – and if we get an estimate as to when they plan to submit, I'd like to add something like ..."FDEP has informed R4 that they plan to submit...."

Just wanted to snag the most current info you have for the weekly, but not create any kind of ask/deadline for an update. I just know it's a quickly changing, complex item.

Aaryn,

EPA and FDEP have signed our MOA and the USACE has also signed the FDEP/USACE MOA. These two documents are required for submission of a complete assumption package. However, at this time we have not received an assumption package from FDEP. Yesterday we heard, at a staff level, that FDEP may send the package next week. We are contacting FDEP this morning to see if they have a status update.

Hi Jeaneanne,

Can you let me know the latest on this by 11AM tomorrow so I can get the weekly report correct? I have that we are waiting on the Corps signature. I know it changes every hour. Thanks!

**Subject:** FW: FDEP assumption update

Mary,

As an FYI. We understand that that Corps has now signed the MOA. Earlier, FDEP advised that it could be next week before the package is submitted. Below is the information they provided. We are waiting to hear from them if the Corps' signature changes this schedule.

Thanks  
jeaneane

FDEP reports (earlier today before we heard about Corps signature)

- The Corps MOA has to be reviewed by multiple levels at the Corps before signing and they could not give a date for signature.
- Same for SHPO agreement
- FWC indicated they would sign the "Big Fish Little Fish" MOU by Aug 12 but they're hoping it will be sooner and then needs to go to USFWS for signature. FDEP mentioned that they may not wait for USFWS signature to submit package as the MOU would not change after FWC signature
